

# REFRIGERATOR COMPACT K 420 RG C2 5W

Product series: Compact

Item number: 964200442

COMPACT K 420 models not only comply with the EU Ecodesign labelling regulation, but ranking in energy efficiency class B makes these refrigerators the most energy efficient compact models in the marketplace.

Correct and uniform temperature throughout the cabinet is critically important for a food storage cabinet. GRAM COMPACT provides this with a unique ventilated air distribution system and a strong refrigeration system with sufficient refrigeration capacity. It also has approximately 70% more insulation than a bottle cooler.

COMPACT has an efficient refrigeration system and is approved to endure up to 30°C ambient temperature (climate class 4). It further offers low heat emission with minimal compressor running time thanks to a refrigeration system with surplus capacity.

With their foot print of 59.5cm (W) x 64.2cm (D) x 190.0cm (H), these small space storage cabinets are easy to fit in especially when space is of a premium.
