

## BAKER F 625 CCG 20B

Product series: Baker

Item number: 966250201

The GRAM BAKER F 625 CCG 20B is a with a net internal volume of 417 Ltr.

Generations of bakeries, confectioners, and patisseries are trusting GRAM BAKER storage and process cabinets to accommodate their bakery products. The GRAM air circulation system is key to maintain correct and uniform temperatures inside the cabinet. The air is exhausted and refrigerated before being directed back into the cabinet, circulating around all food items. Thus, unwanted dehydration and skin forming of doughs can be avoided almost entirely.

### Preserving Quality

Both storage and process cabinets come with built-in functionalities that preserve the quality of your bakery products at all times.

### Low Running Costs

The energy-efficient refrigeration technology implemented in this wide line-up of storage cabinets can help saving running costs on a day-to-day basis.

### Built-in Safety

All BAKER Cabinets come with a controller equipped with safety functions: Door alarm, alarms for high-temperature levels, or when the cleaning of the condenser filter is required to avoid overheating. A top panel perfectly protects the controller from water splashes.

### Designed for Bakers

The GRAM BAKER series strikes with features, specifically designed for the requirements of bakery businesses. The cabinet meets standard bakery tray sizes and the support rails can be individually positioned.

The BAKER F 625 CCG 20B comes with the following extras:

Right-hand hinged door with lock

Air circulation system

Dry cooling and controlled thawing (M versions)

Automatic defrost and reevaporation of water

## SPECIFICATIONS

Temperature range	-25/-5°C	Connection load (Watt)	445
Volume, gross (ltr.)	603	Energy consumption Ecodesign (kWh/Year)	1725
Net usable volume (ltr.)	417	Energy Efficiency Class (ISO 22041-2019)	C
Exterior	Stainless	Energy Efficiency Index EEI	48.9
Interior	Stainless	Sound level dB(A)	51
Dimensions W x D x H (mm)	820 x 770 x 2000	Climate class	5
Weight, packed (kg)	137	Refrigerant (kg)	0.1
Insulation (mm)	70 mm (cyclopentane)	CO2 equivalent (kg)	0.3
Refrigerant	R290	GN – Shelf size	Trayslides 60 x 40 cm
GWP	3	Equipped with	Right hand hinged reversible door with lock; automatic door closing, 20 pairs of supports (60 x 40 cm)
Ref. capacity at -25°C (Watt)	499	Door Type	Solid Door
Connection	230V, 50 Hz
