Introducing the TEFCOLD Galaxy+ FGD (Full Glass Door) range: our latest innovation in plug-in multidecks. We've combined an expanded display area and optimized cabinet efficiency with frameless, full-vision glass doors, offering enhanced product visibility that captures customers' attention. The ultra-low front and slim top canopy provide an extra 100mm of internal height, accommodating up to 5 shelves (plus base) as standard, all while maintaining an overall height of just 2005mm. With a depth of only 750mm, the unit fits through standard doors for easy installation, yet has 400mm deep shelves for maximum stock capacity. Thanks to the carefully designed refrigeration system and optimal airflow throughout the cabinets, all sizes in this range are rated A or B for energy efficiency. Each unit comes with heavy-duty adjustable shelves that can be tilted if needed, as well as EPOS ticket strips and shelf risers as standard. Optional extras include glass end-walls and multiplexing kits.
